

Bike Newton Candidate Questionnaire

Housing, transportation and climate are inextricably linked together to create healthier, people-centered cities, yet these issues are often addressed separately. This Candidate Questionnaire was adapted from the Vision Zero Coalition for Mayoral and City Council candidates in Boston, Somerville and Cambridge. Bike Newton would like to understand your approach to these interconnected issues. Survey responses will be posted onto the Bike Newton website, and a link will be shared with our email distribution list of over 1750 people.

Name: Maria Scibelli Greenberg

Due to conflicts Councillor Greenberg could not respond to our questionnaire, but stated she is generally supportive of multi-modal transportation options.
